

## POWER GENERATION

---

The power generator range

DEGREANE HORIZON supplies a range of Class D power generation solutions, from 5kVA to 50kVA, and from 500Hz to 8,000Hz pulsed power.

These generator units perform direct synthesis operating in Class D horizontal switching mode using a continuous power supply to deliver a sinusoidal output signal.

They are used, for example, in the field of underwater acoustics to excite transducers.
