

WHO WE ARE

Originating from the electronics department of Ets DEGREANE, DEGREANE HORIZON has been working for over fifty years with customers all over the world in sectors reliant on electronics: Defence, Energy/Transport, and Meteorology.

The company specialises in the design, development and deployment of remote-monitoring and remote-measurement systems.

We work in sectors as diverse as civil aviation meteorology, weapons systems for the French state, and data protection and communication on France's electricity distribution and transmission networks.

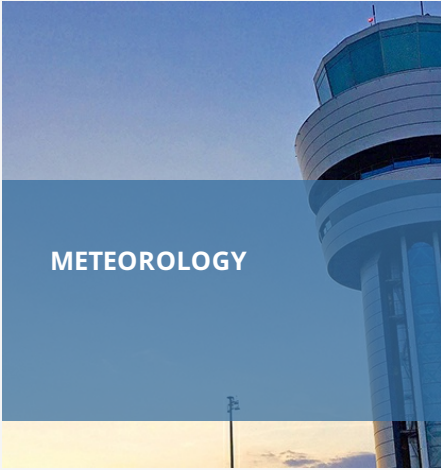

As experts in these technical fields, we also provide through-life support services and training for our customers. As part of the **VINCI Energies** Group, we work with customers in over 100 countries worldwide.

We take our social responsibilities seriously, and have developed a Quality, Health&Safety and Environment policy to protect our highly-qualified employees, technicians and engineers.

DEGREANE HORIZON encourages strong human values including empowerment, responsibility, initiative, trust and solidarity.

DEGREANE HORIZON has held ISO 9001 certification since 1997.
